GLOBAL UPDATE

Dear GBCs, partners and sustainable building advocates,

Welcome to the WorldGBC's February Global Update, and our first newsletter of 2021.

Although COVID-19 defined 2020, we begin the year reinvigorated and focused on catalysing sustainable buildings for everyone, everywhere.

Here are the highlights from this month's update:

- United towards a [COP26 Built Environment and Cities Day](#)
- We're looking for [ambassadors to join our #BuildingLife campaign](#)
- Join us in March for the [Middle East and Africa Green Building Congress](#)

Best wishes,
Cristina Gamboa, CEO, World Green Building Council

UNITED TOWARDS A COP26 BUILT ENVIRONMENT DAY

At the end of 2020, we were thrilled to receive the news that we will be helping to make the COP26 'Built Environment and Cities Day' a reality.

We will be working closely with the UN Climate Change Conference President-Designate, Alok Sharma, High-Level Climate Champions, and our consortium of partners to give the built environment the platform it deserves as a solution to climate change.

Join us for the Middle East and Africa Green Building Congress 2021.

Learn from best practices and regional case studies in our effort to collectively respond to climate challenges facing the region, for people, planet and our economies.

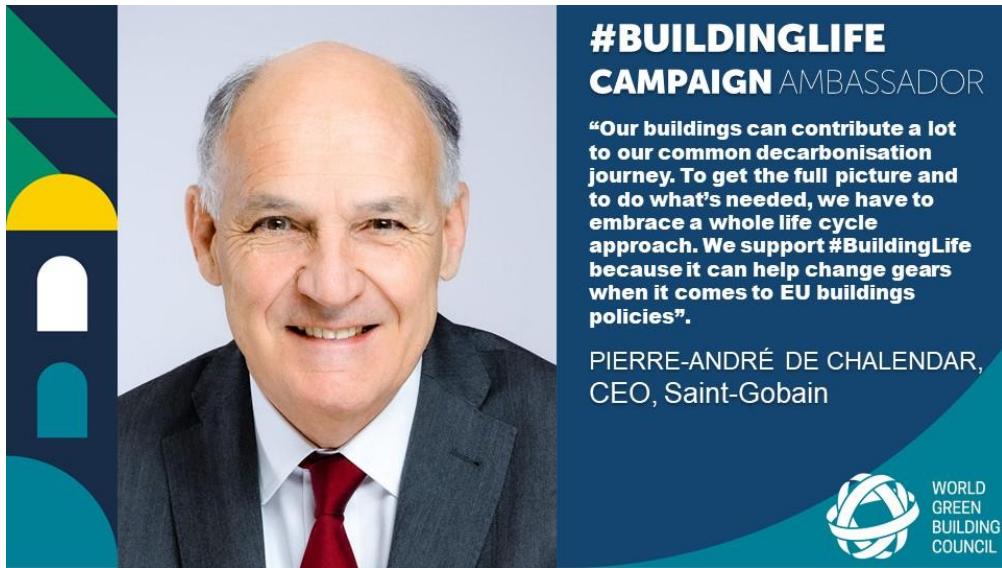

When: 22 & 23 March 2021

Time: 12:00 - 15:00 UTC

WorldGBC would like to say a special thank you to our partner, Majid Al Futtaim, for their generous support and making this event possible.

**Discounted ticket rates are available for GBC members. Please contact events@worldgbc.org for further information.*

Following a successful launch in December 2020, we are continuing the rollout of activities for our [#BuildingLife](#) project, which aims to deliver the [EU Green Deal](#) by driving decarbonisation of the building sector through private sector action and public sector policy.

A key project on the road to COP26, #BuildingLife brings together a coalition of ten European Green Building Councils.

A parallel communications campaign is recruiting #BuildingLife ambassadors from a variety of built environment and political backgrounds.

THE Paris... CLIMATE 10 years PLEDGE Early

Co-founded by Amazon and Global Optimism, The Climate Pledge is a cross-sector community of companies, organisations, individuals, and partners, working together to solve the challenges of decarbonising our economy. Bringing together those that are prepared to run the furthest and fastest, The Climate Pledge calls on signatories to reach net zero-carbon emissions by 2040—10 years ahead of the Paris Agreement.

WorldGBC is proud to be a part of this collaborative effort to recruit companies to The Climate Pledge, as it is aligned with our mission and complementary to the leadership action of the Net Zero Carbon Buildings Commitment.

Introducing the BUILDUPON² Cities Series — where WorldGBC's Director of Europe, [Stephen Richardson](#), speaks to the eight pilot cities involved in [BUILD UPON²](#) — the world's largest collaborative project on building renovation.

In this first feature, WorldGBC spotlights the city of Padova, which is developing a ground-breaking new renovation framework that allows municipalities to measure the holistic benefits of building renovation.

WorldGBC speaks with [GBC Italia](#) and the Municipality of Padova about some of the successes and challenges of testing the framework.
