

# Malik Belhocine

## Engineer in Internship at Alliance HQE-GBC

### # Objective

- Responsible, autonomous and professional, I wish to learn about new methods to increase my knowledge whether in the Industrial or Environmental sector.
- My experience and knowledge in different domains concerning the building sector allowed me to join a known engineer school.
- I am actively looking for a 3 weeks contract in an Industrial, Environmental company or in a building design office to further develop my skills in these domains. I am available between the 8th of June and the 25<sup>th</sup> of July, for further information please do contact me thanks to my e-mail or phone number.

### # Professional experiences

#### Alliance HQE-GBC | Project manager

7th of October 2019 to this day

- My job as a project manager is to prepare and animate meetings, contribute to the redaction of guides, assist my coworkers with everything they need, redactions of notes, records and synthesis.
- Analyze information from LCA studies and project.

#### OA7 Energy | Responsible in business

Nov. 2018 – Augu. 2019

- Throughout my contract I had to visit construction sites to answer study offers, realize quotes but also the dimensioning of Aeraulique systems and plumbing systems, as I was doing this, I had to create processes of "How to manage a study offer".

#### Tempere Entreprise | Assistant engineer in Climatisation, Ventilation and Heating systems

Sept. 2018 – Augu. 2018

- In my stay at Tempere Entreprise I had to visit construction sites, realize thermal studies with Perrenoud, ClimaWin, Aldes and dimensioning of aeraulique and plumbing system.
- I also had to create plans, drawings with Autocad and Revit.
- And finally, the redaction of files of executed work

#### ENGIE HOME SERVICES | Technician

May 2016 – Augu. 2016

- Maintenance of multiple installations such as heat pumps and boiler but also the redaction of quotes.

### # FORMATIONS

#### 2018/2021 – 2<sup>nd</sup> year at « L'école supérieur d'ingénieur en électrotechnique et électronique d'Amiens » équivalent M1.

In my engineer school we're taught about every aspect of the building sector from every scientific matter such as thermodynamic, electronic or to the many ways of creating a building who respects the environmental regulations but also everything about energy, air treatment, climatization, Bbio, cep, electricity, security, electronic and technology of thermal systems.

#### 2017 – HND Level in Fluids, Energy and Domotics

In the course of my HND Diploma we were taught the basic of thermodynamic systems, fundamentals in Mathematics, Physics, Chemistry and group projects.

#### 2014 – Baccalauréat in Science and Physics
